Wissenschaft, Forschung und Technologie
des Landes Nordrhein-Westfalen

The series **INTERNATIONAL DIALOGUE ON EDUCATION BERLIN** is a joint initiative of the British Council, the German Academic Exchange Service, the German-American Fulbright Commission, the Australian Group of Eight and the Canadian Bureau for International Education in Berlin. Through the contributions of international participants the series aims to enrich the debate on science, research and higher education policy in Germany, to place German perspectives in a global context and to learn from positive examples from other countries.

This fifth event of the series will look at models of 'Lifelong Learning' in Australia, Canada, the United States and the United Kingdom, and examine best-practice as well as new developments from these four countries.

Participants must register in advance. The working language will be English.
